Your first application workspace

A guided tour using anonymized sample materials.

The interactive sample

A prepared example you can explore immediately

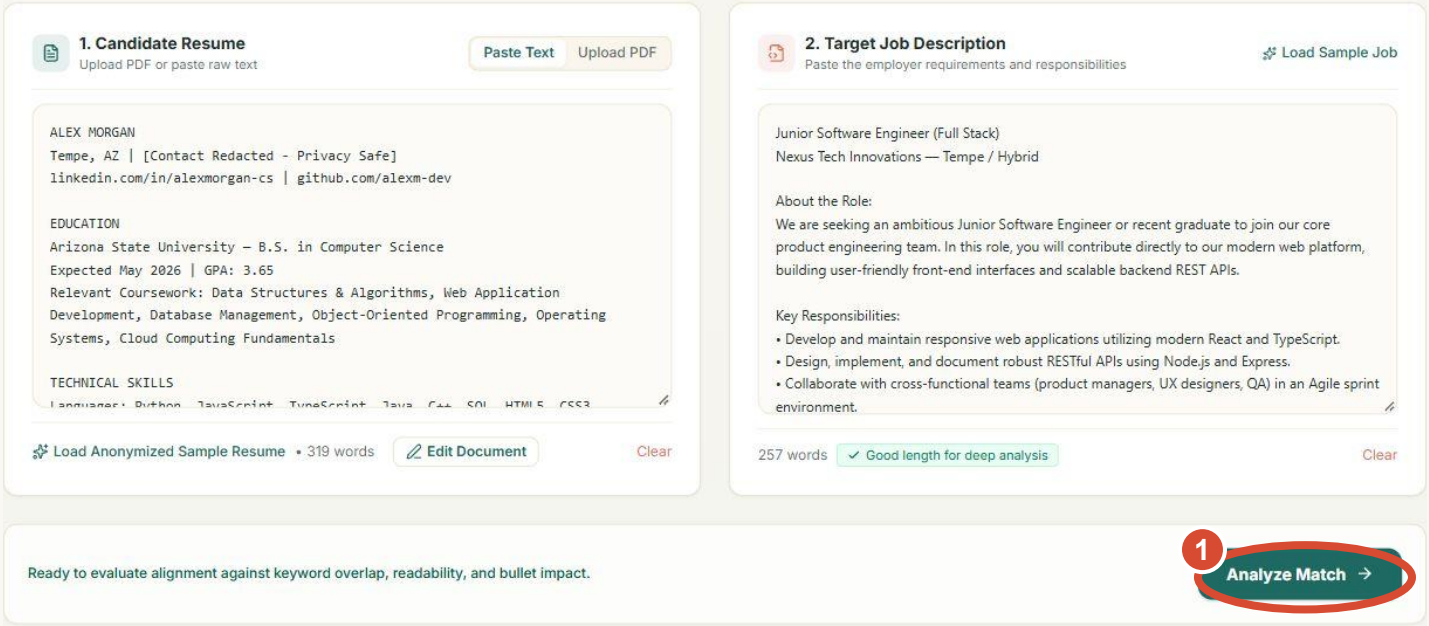

Choose Explore the interactive sample.

Review the sample label before continuing.

Choose Explore the interactive sample.

Your resume and target role

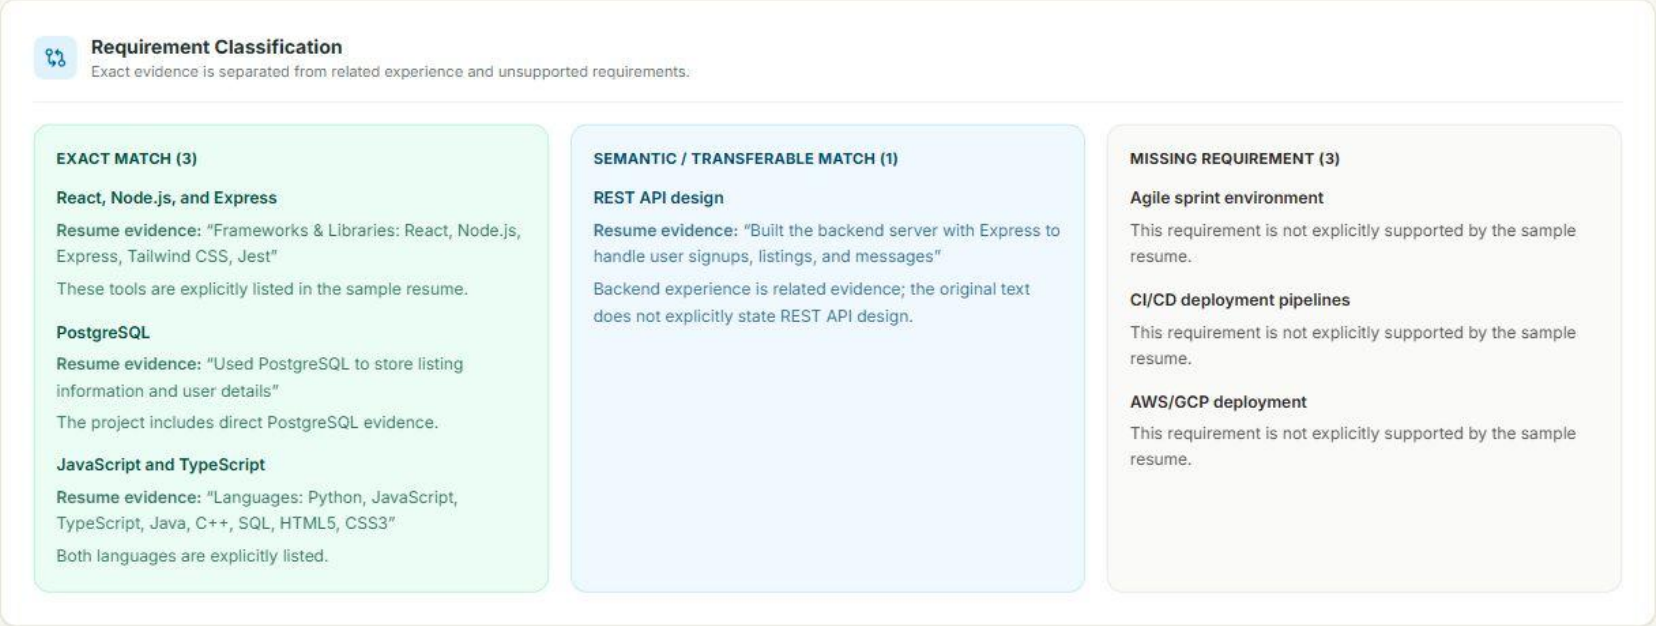

Live analysis begins with your own materials

Paste resume text or upload a PDF.

The match diagnosis

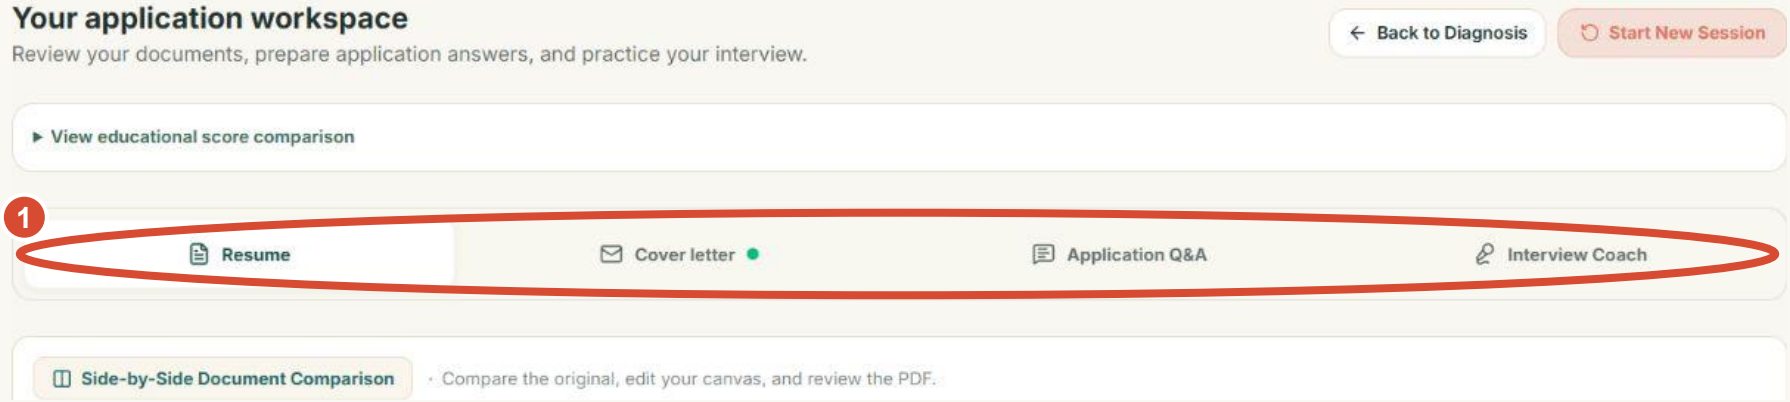

The explanation matters more than the number

Review exact and related evidence separately.

The application workspace

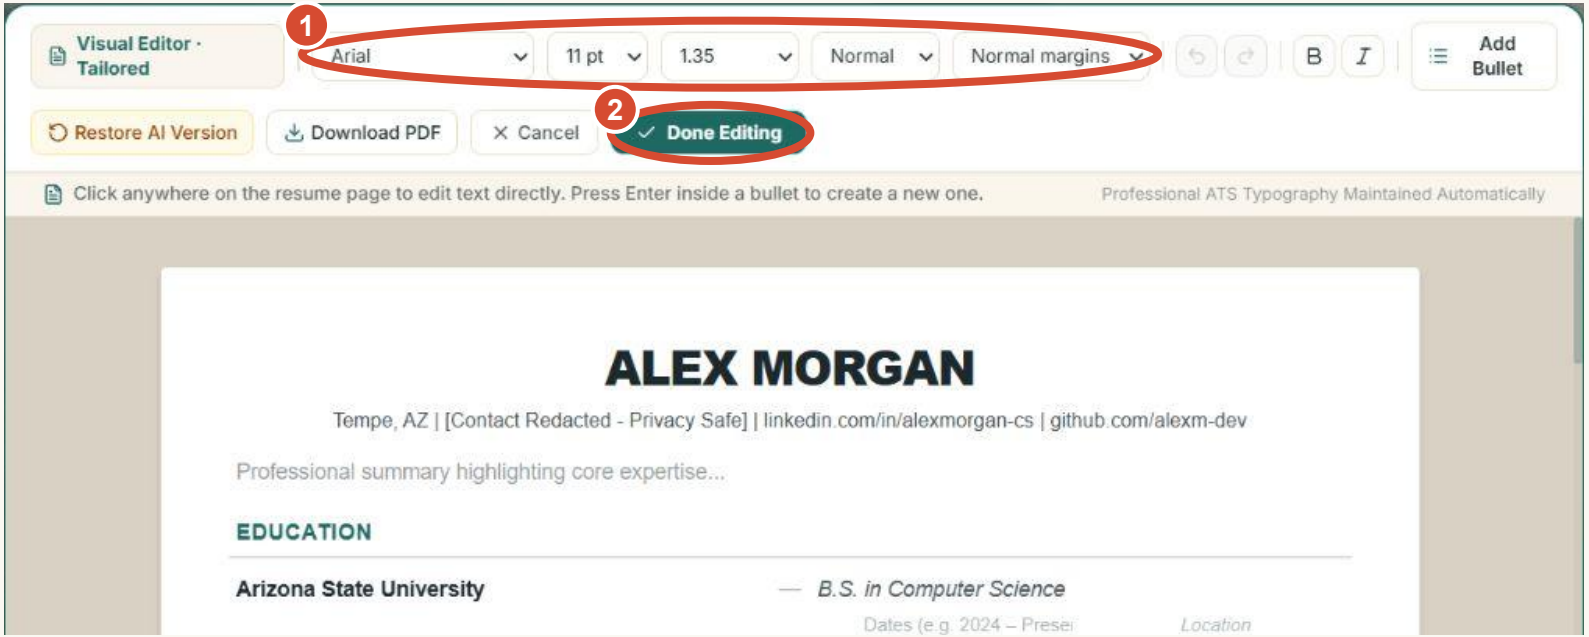

Four sections keep your preparation together

Open the workspace after diagnosis.

The resume canvas

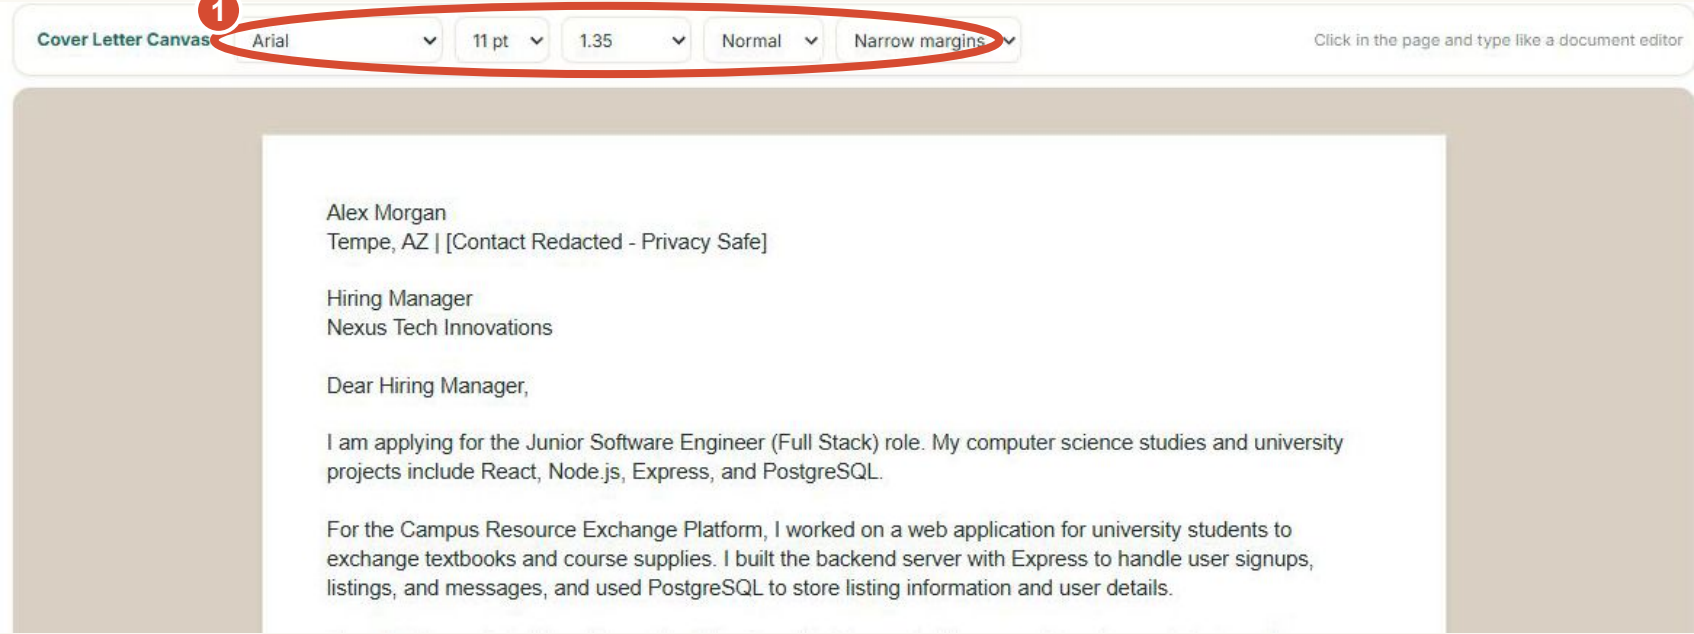

Direct text editing and document formatting

Open Edit Resume Canvas and click the text.

The matching cover letter

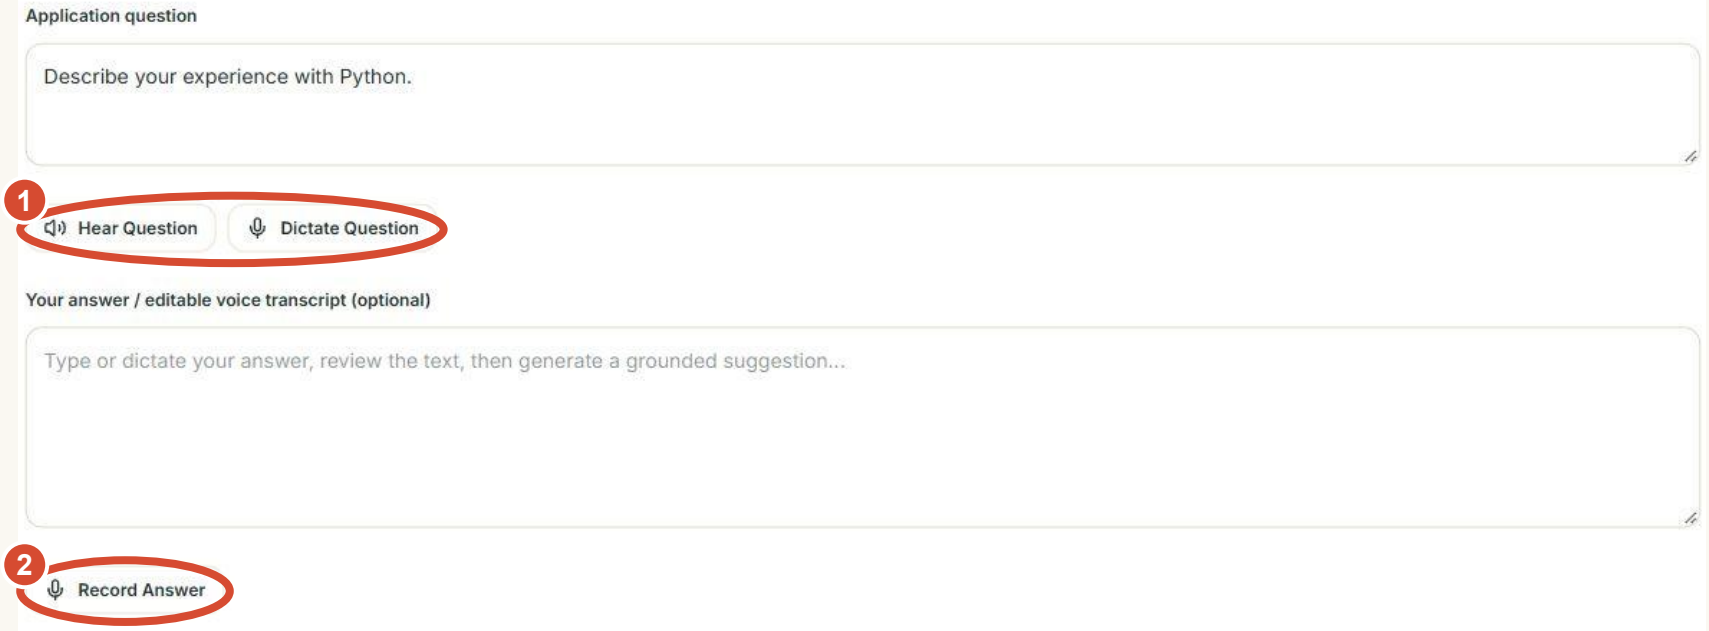

A starting point you can revise

Open Cover letter.

Application questions and answers

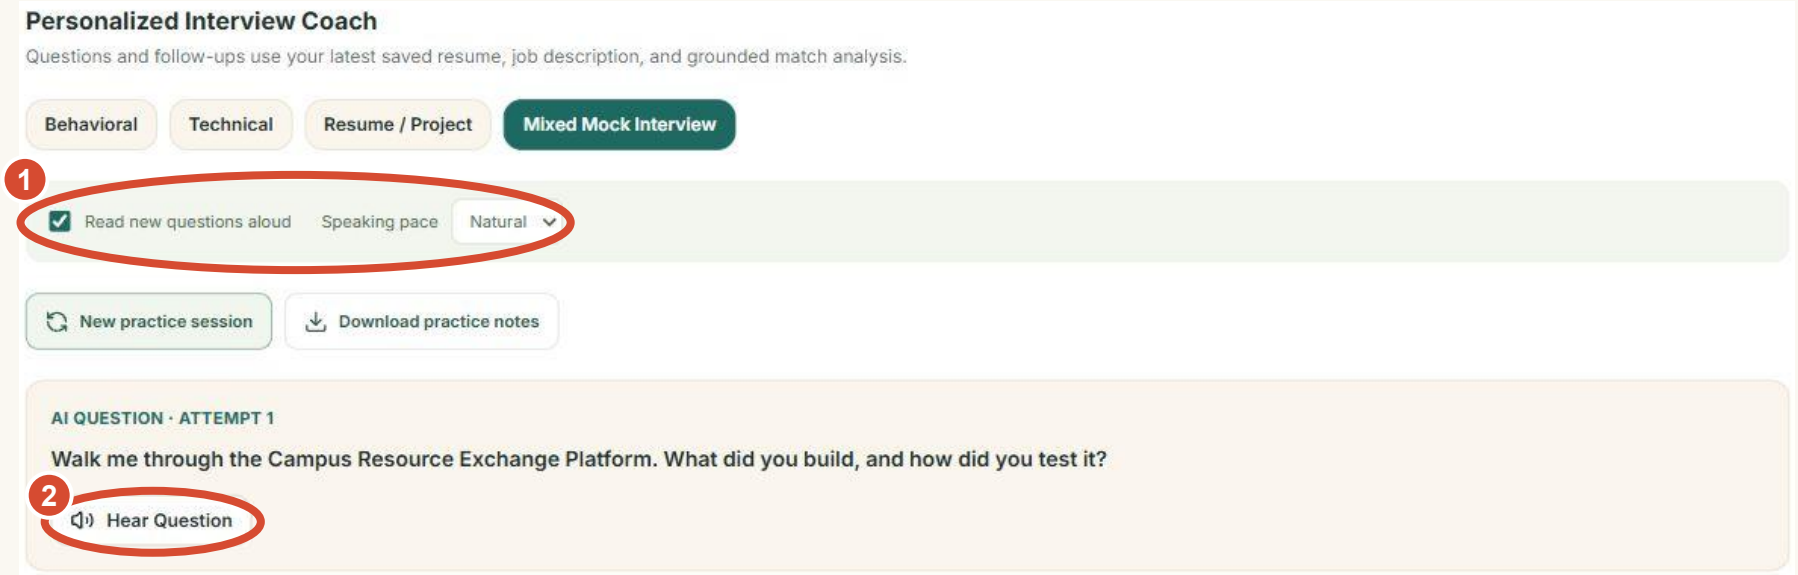

Text or voice input with evidence to review

Type or dictate a question.

The interview practice session

A question tailored to your application materials

Choose a practice type and start.

Your spoken answer becomes editable text

You control what reaches the AI

01

Spoken question + written text

02

Microphone + editable transcript

03

Review + Submit Answer

04

AI feedback + follow-up

Only Submit Answer sends the reviewed answer text for feedback.

Microphone access

Browser and Windows permissions both matter

01 **Chrome site controls: Microphone / Allow**

02 Windows: Privacy & security / Microphone

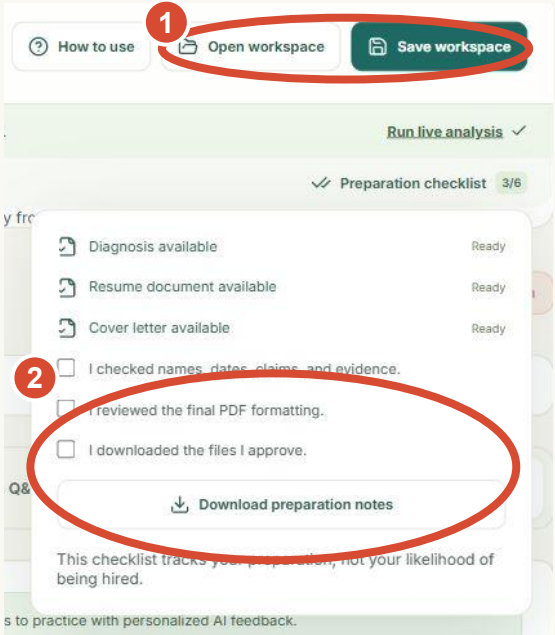

03 Enable microphone and desktop app access

04 Save your workspace before reloading

Use the published app in a separate Chrome tab. Text entry remains available.

Saving and reviewing your work

Separate workspaces for separate roles

Name the application and save the workspace file.

Name the application and save the workspace file.

Download answers and interview notes separately.

Review facts and final PDFs with the checklist.

Thank you

You are ready to explore your next application

1. Explore the sample
2. Prepare your own application
